

Thankeswaran Anojan

Passionate Engineering Technology student with a focus on Industrial Automation and Robotics. Skilled in engineering principles and problem-solving, with practical experience in full stack development. Eager to apply academic knowledge and hands-on skills to contribute to innovative projects in industrial automation. Strong team player with excellent communication skills

Skills

Auto CAD & Solid Work
PLC Programming & SCADA
Industrial Automation
Fundamental of Robotics
Manufacturing & Production
Mechanical & Electronic
C, Python & Java
React Js + Tailwind CSS

Familiar's Tools

- Auto CAD & Solid Work
- Micrichip Studio & Arduino IDE
- Logo Soft PLC Software
- Android Studio & Visual Studio Code
- GitHub ,Postman &IntelliJ IDE

Education History

Bachelor of Engineering Technology

| undergraduate |

Specialized in Industrial Automation and Robotics, Faculty of Computing & Technology, University of Kelaniya, Sri Lanka

Work Experience & Projects

- Engaged in collaborative development efforts for an IoT-based Inventory Management System as part of a university group project (Java, SQL & C)
- Participated in developing a university project involving Arduino, where we automated a Miniature Circuit Breaker (MCB) based on thunder and lightning activity.
- Participated in the development of a website for an e-commerce business. (React Js + Node Js)
- In a small team, I developed software to build a private institute's Management system. (React Js and .NET)
 - Github https://github.com/AnochAno

Interests

- Instrumentation & Industrial Automation
- Manufacturing & Production
- App & Web Developments

Reference

Dr. (Mrs.) Tharaga Sharmilan,PhD

Senior Lecturer (Gr.II)
Department of Applied Computing,
Faculty of Computing and Technology,
University of Kelaniya, Sri Lanka.
Email: tharagas@kln.ac.lk

Dr. (Mrs.) Madusha Chandrasena,PhD

Senior Lecturer (Gr.II)
Department of Computer Systems Engineering
Faculty of Computing and Technology
University of Kelaniya
Email: madushac@kln.ac.lk
