

# Thankeswaran Anojan

Passionate Engineering Technology student with a focus on Industrial Automation and Robotics. Skilled in engineering principles and problem-solving, with practical experience in full stack development. Eager to apply academic knowledge and hands-on skills to contribute to innovative projects in industrial automation. Strong team player with excellent communication skills

# Skills

Auto CAD & Solid Work
Java & Spring Boot
C# and .NET Framework
PLC Programming
Industrial Automation
Fundamental of Robotics
Embedded & IOT
C programming & Python
React Js & React Native
Material UI & Tailwind CSS

#### Familiar's Tools

- NetBeans IDE & IntelliJ IDE
- Visual Studio IDE Professional 2022
- Android Studio & Visual Studio Code
- GitHub ,Postman & Google Cloud
- Micrichip Studio & Arduino IDE
- Logo Soft PLC Software

# **Education History**

### **Bachelor of Engineering Techlonogy**

| undergraduate |

Specialized in Industrial Automation and Robotics, Faculty of Computing & Technology, University of Kelaniya, Sri Lanka

# **Work Experience & Projects**

- Engaged in collaborative development efforts for an IoT-based Inventory Management System as part of a university group project (Java, SQL & C)
- Participated in developing a university project involving Arduino, where we automated a Miniature Circuit Breaker (MCB) based on thunder and lightning activity.
- Participated in the development of a website for an e-commerce business. (React Js + Node Js)
- In a small team, I developed software to build a private institute's Management system. (React Js and .NET)
  - Github https://github.com/AnochAno

#### **Interests**

- Embedded Systems & Robotics
- Instrumentation & Industrial Automation
- App & Web Developments

## Reference

Dr. (Mrs.) Tharaga Sharmilan, PhD

Senior Lecturer (Gr.II)
Department of Applied Computing,
Faculty of Computing and Technology,
University of Kelaniya, Sri Lanka.

Email: tharagas@kln.ac.lk
